

ANTARCTIC PENINSULA & SOUTH GEORGIA

21 February 2017 | 15 Nights | Aboard PONANT Le Soleal

We have sailed to Antarctica before and we were **INSPIRED** by it; however, we forgot a few things: to get off the ship, to step onto the continent, and to get a picture with a penguin! So, we are going back and would be thrilled if you joined us.

For centuries, the Antarctic remained like a ghost on the map of the world; yet today, the *White Continent* exerts a powerful fascination. Explored since only 1820, this vast icy offers spectacular mountain scenery, the world's biggest icebergs, and an extraordinary array of wildlife: fur seals, penguins, albatrosses, sea elephants, orcas, and whales live side-by-side in this grandiose landscape.

Who has not dreamed of savouring the white stillness, an extraordinary spell-binding atmosphere of total serenity unequalled anywhere else on Earth?

It is an experience not to be missed!
